## Overview

Caterina joined the firm because of her strong interest in environmental issues and their impact on communities. She grew up in Peru, in a small town named Cajamarca, where she developed her passion for animal and environmental protection.

In 2025, Caterina received her B.S. in Environmental Economics and Policy from the University of California, Berkeley. Prior to joining the firm, she worked as Legal Assistant at a plaintiff's side litigation firm involving California Lemon Law matters. She now aims to help protect the planet and all its species through her work at Sher Edling.
